NOTICE TO STAFF AND STUDENTS

RESUMPTION OF ON-CAMPUS ACADEMIC ACTIVITIES

In line with government's directives, staff and students are informed that face-to-face, on-campus activities will commence on **1st June 2020**.

Consequently, students are called upon to follow the guidelines provided by the various Establishments concerning the organisation of teaching, practicals and other academic activities in a manner that respects the measures put in place to prevent the spread of **COVID 19**.

During this semester, lectures and practicals shall be held in groups, with reduced numbers, that prevent close contacts of students. Students should consult the timetable and identify the different groups for each course.

While on campus, you are requested at all times, to respect the following:

1. Regular and proper wearing of facemasks.
2. Regular and thorough washing of hands.
3. Regular and proper application of hand-sanitizers.

4. Be available for regular temperature checks on entry into campus or Lecture Halls.
5. Avoid handshakes and hugs amongst mates.
6. Avoid open sneezing and coughing.
7. Practice both social and physical distancing in the lecture halls, laboratories, and library.
8. Avoid crowds, either on the walkways or open spaces on campus.
9. Avoid crowding offices.
10. Respect all guidelines and deadlines issued by the University for the urgent completion of tasks related to teaching, research, internships, and community engagements.
11. Any staff or student with malaise or flu-like symptoms should report or be reported immediately to University of Buea Health Centre.

Posters from the Ministry of Public Health and the World Health Organisation have been placed around the campus, describing comprehensive protocols and safety measures to follow. We urge you to read these posters regularly and respect the prescribed measures.

We count on your diligence to facilitate the smooth completion of the Second Semester and the 2019/2020 academic Year.

Professor Ngomo Horace Manga
Vice-Chancellor
